

August 17, 2020

Dear Family & Friends,

Last Monday, after learning about the second employee being positive for Covid-19, we re-tested all of the Residents & Staff on the second floor where this employee worked. The results of one test have not yet come back, but all of the other tests have come back negative. We eagerly await the results of this final pending test and pray that it will also be negative.

The first employee who tested positive in late July has returned to work after remaining symptom free for 14 days. The Resident who tested positive on August 3<sup>rd</sup> remains asymptomatic and has completed her isolation. The second staff member whose results were positive on August 10<sup>th</sup> remains asymptomatic but has yet to return to work. All other Residents remain healthy and continue to be monitored for symptoms daily.

We pray that this is the extent of the spread of Covid-19 for our Home. Please continue to keep us in your prayers.

United in Prayer,

*Mother Mary Vincent, lsp*
