

February 11, 2021

Dear Family & Friends,

Unfortunately, the Resident who returned Home from the hospital last week passed away earlier this week. May he rest in peace. There have been no new Covid-positive Residents or staff in the last two weeks. We pray that these negative results continue.

Yesterday CVS Pharmacy was here for the third and final time to administer vaccines to the Residents and Staff needing their second booster. All of the Residents (nursing and independent living apartments) chose to be vaccinated—100%! A vast majority of staff and Sisters also chose vaccination. Indoor auditorium visits will resume later this week with the same screening protocol as before (temperature checks & socially distanced visits with Residents). Please call the main line at (412) 307-1100 to schedule a visit.

We have some exciting things planned for Mardi Gras next week and will try to have a fun celebration in a socially distanced format. Please keep us all in your continued prayers as we will do the same for you.

May God bless you,

Mother Mary Vincent, lsp
