

February 26, 2021

Dear Family & Friends,

Last week was another week of negative testing throughout the Home. We must continue weekly testing until the positivity rate in Allegheny County falls below 5%. Thankfully, it seems as though we are approaching this threshold. Once reached, we will be testing less frequently as long as we continue to receive negative results. All good signs that the vaccine is helping in our Home and in the greater community at large. Unfortunately, a second Resident who had tested positive for Covid-19 back in January was hospitalized then released back to us last week has passed away. It seems the complication of Covid-19 along with the pre-existing conditions for some of the elderly Residents is too much to overcome.

Prior to the start of Lent last week, we had a Mardi Gras party. It was a “watch party” for our virtual parade and crowning of our King and Queen of Mardi Gras. This year was obviously different than previous years, but everyone made the most of it.

We will continue to pray for progress in ending this pandemic. May God bless you this Lent and upcoming Easter Season!

Gratefully in Prayer,

Mother Mary Vincent, lsp
Administrator
