

April 9, 2021

Dear Family & Friends,

We are happy to report that we have had another two straight weeks of negative Covid-19 testing. Last week we were thrilled to slowly welcome back families and friends for visits in the Residents' rooms. Everyone is so happy to be together again.

A few reminders about the visits: each visit must be scheduled through the main desk at (412) 307-1100. Remember that your time of 1 hour must be adhered to as we have limitations on the total number of visitors permitted on each household at a given time. If you arrive late for your scheduled visit, please do not stay beyond your allotted time slot as this could take away time from another guest waiting to visit. Also, please refrain from going anywhere else in the Home or in the household while visiting.

Holy week and Easter Sunday were wonderful for all the Residents and Sisters. We are so blessed here in our Home and we know that these blessings are from God! Thank you for all that you do for our Home and Residents.

Gratefully in Prayer,

Mother Mary Vincent, lsp
Administrator
