

September 7, 2021

Dear Family & Friends,

It has been sometime since I last updated this page because no new was good news. Unfortunately, I must come to you now with some bad news. Last week we had three Residents on two separate households test positive for Covid-19. As we have reported previously all our Residents are fully vaccinated, so both cases are considered breakthrough infections.

Test results on staff showed another two positive cases. We have locked down both households and halted visitations and volunteers for the time being. It is uncertain how long this shut down will last as that is dependent on the additional testing to be done this week.

Please continue to pray for our Residents, staff and entire Home as we move through this challenging time.

Gratefully in Prayer,

Mother Mary Vincent, lsp
Administrator
