

October 11, 2021

Dear Family & Friends,

Unfortunately, I must report another two positive cases among staff members and one Resident case. Due to scheduled time off, one staff member was not here at the Home for many days prior to testing positive. The other staff member was not allowed entrance to the Home because their symptoms were identified through the front desk screening area. Unrelated to these staff cases, another Resident was displaying symptoms and has since tested positive. That nursing unit is now on quarantine.

We are praying that this is not another step backward in our journey to re-open for indoor visitations. Please continue to keep our Home in your prayers. Thank you.

May God bless you.

Gratefully in Prayer,

Mother Mary Vincent, lsp
Administrator
