

November 19, 2021

Dear Family & Friends,

Beginning today our visitation policy has once again changed. Visits no longer need to be scheduled through the front desk and there will not be a time limit on the visit. We are asking that you keep your party to no more than four people visiting one Resident at a time and we also ask that no children under 18 be part of your party. Pets are now welcome.

In order to continue keeping everyone safe, you will still be screened at the front desk for temperature and screening questions when you first arrive. We also ask that you visit only in the Resident's room. For the safety of all, we encourage everyone to be vaccinated, wear masks and wash your hands frequently. We also ask that if you are not feeling well to refrain from visiting until you feel better.

Thank you for your patience and understanding during this time and please continue to keep our Home and Residents in your prayers.

Gratefully in Prayer,

Mother Mary Vincent, lsp
Administrator
