

January 18, 2022

Dear Family & Friends,

Currently, only three Apartment Residents remain on isolation following a positive Covid test. While they have experienced symptoms, they are slowly improving and should be released from isolation soon. An additional two Apartment Residents are pending a test and therefore are isolating until they have results. All other Apartment Residents who previously tested positive are fully recovered and out of isolation.

Since our last update two additional employees have tested positive, as has a Little Sister. The employees are off until their required isolation period ends, and the Sister is sequestered in the convent. Please pray that this outbreak subsides quickly and that our Residents are spared any serious complications.

Thank you for your support and prayers.

Gratefully in Prayer,

Mother Mary Vincent, lsp
Administrator
