

May 12, 2022

Dear Family & Friends,

We have not updated this page lately as all things were quiet and there were not any new cases in the Home from February to April. Unfortunately, this has recently changed. Currently there are two Residents and two employees with Covid. All seem to be doing ok, but subsequently we are now limiting access to the two households affected.

Last month an employee tested positive, but this case was an isolated one. We are planning to administer the second booster in early June in conjunction with our pharmacy for all Residents, Sisters, Staff and Volunteers who qualify.

Please continue to pray that there are no serious symptoms for those infected by the virus.

Gratefully in Prayer,

Mother Mary Vincent, lsp
Administrator
